SUMMARY

I keep the queue honest. Take the ticket, reproduce the fault, write the handover, close after retest. On the desk: Windows, access rights, first-line. In GitHub: DevOps and cloud, Linux, Azure, Terraform, Docker, Kubernetes and CI/CD, so infrastructure is code and the pipeline speaks before production does. M.Sc. Information and Communication Engineering, HAW Hamburg. Open to relocate for a full-time DevOps or cloud job.

SKILLS

Cloud and DevOps: Azure, Terraform, Bicep, Docker, Kubernetes, GitHub Actions, CI/CD, Ansible, Prometheus, Grafana

Systems: Linux, Windows, Bash, Python, Git, incident handling, access administration

Languages: English fluent, German B1, Bengali native

WORK EXPERIENCE

Working Student, IT Operations | Mondia Group, Hamburg, Germany | June 2024 - July 2026

- Incident lifecycle: intake, reproduce, follow-up, close after retest.
- Shift handover notes so the next person can continue without guessing.
- User accounts and access rights. First-line support by email and on site.

Working Student, Operations | Motion E-Commerce GmbH, Hamburg, Germany | November 2021 - September 2023

- Failed production runs tracked to cause and closed. Excel control reports and operating notes.

PROJECTS

azure-infra-foundation | <https://github.com/mynulislam95/azure-infra-foundation>

- Terraform for a small Azure landing: resource group, VNet, NSG, storage, Log Analytics. GitHub Actions runs format and validate. Apply waits for a subscription.

status-service-delivery | <https://github.com/mynulislam95/status-service-delivery>

- Status HTTP service as Compose and Kubernetes: tests, Prometheus, Grafana, CI health check, failure drill, rollback, live and ready probes.

it-ops-automation | <https://github.com/mynulislam95/it-ops-automation>

- Windows inventory, Linux health check, five tickets with verification, backup restore, Ansible. Active Directory and Entra procedures in the repo. AD needs an evaluation VM. Entra needs a tenant.

EDUCATION

M.Sc. Information and Communication Engineering | HAW Hamburg, Germany | April 2026 - present

- Information and communication systems, networks and digital infrastructure.

B.Sc. Information Engineering | HAW Hamburg, Germany | October 2023 - February 2026

- Operating systems, computer networks, software engineering, IT systems, databases.
- Thesis: Python data pipelines for day-ahead renewable energy forecasting.
